

# Bedtime Songs and Stories that Build Great Money Habits

## Parent Guide – Follow the Money Rules

---

### Instructions

1. Listen to the featured song.
2. Read the short story that accompanies the featured song.
3. Discuss the song and/or story together.

Ask your child what stood out to them. Share what stood out to you.

---

### Conversation Questions

#### The Goal-Oriented Question

“Is there something you would like to save your money for instead of buying something right away?”

---

#### The Logical Question

“What do you think happens when we follow money rules?”

(You might reflect back responses such as:

“So the money lasts longer?” or

“So we can buy bigger things later?”)

---

## The Emotional Question

“How do you think it feels to make a smart money choice? Proud? Calm? Happy? Confident?”

Follow up with: “Why do you think it feels that way?”

---

## Parent Tips for Success

### Keep it light.

The goal this week is not mastering every rule. It is simply noticing that rules help us feel confident when making choices.

### Repetition is key.

Repeating the song and story matters more than explaining them. Repetition helps children hear, understand, and feel comfortable with money language.

---

## The Bedtime Whisper (Affirmation)

“You’re learning how to make smart money choices, one habit at a time.”

---

## Parent Reflection

Notice your child’s reaction.

- Did they pause to think?
- Did they name a goal?
- Did they express a feeling?

These small moments are signs that the habit is beginning to take root.
